TECHNICAL SKILLS

Programming Languages: Java, JavaScript, TypeScript, C++, C, Python
Backend & Architecture: Spring Boot, Spring MVC, RESTful APIs, JWT Authentication, API Integration
Frontend: React, JavaScript, TypeScript
Databases: MySQL, PostgreSQL, JDBC, Hibernate
Cloud & DevOps: AWS (EC2, S3, IAM), Docker, CI/CD Pipelines, Git, GitHub
Practices & Methodologies: Agile/Scrum, Unit Testing (JUnit), Secure Coding, Object-Oriented Design

EDUCATION

Concordia University <i>Master's in Applied Computer Science 40/45 Credits Completed</i>	Montreal, Canada Jan. 2025 – Aug 2026
Coimbatore Institute of Technology <i>Bachelor's in Information Technology GPA: 8.51/10</i>	Coimbatore, India Nov. 2020 – May 2024

EXPERIENCE

Data Assurance Analyst <i>Ernst & Young (EY) — S. R. Batliboi & Associates LLP</i> - Worked extensively with Alteryx, Helix, and Microsoft Excel for data manipulation and reporting; performed sentiment analysis on datasets for strategic insights. - Collaborated closely with Chartered Accountants to deliver data-driven audit insights at a Big Four accounting firm. - Utilized SQL to extract and analyze large datasets, improving financial assessment accuracy.	Dec 2023 – Feb 2024 Chennai, India
Full-Stack Developer (Part-Time) <i>Coimbatore Institute of Technology</i> - Developed scalable features using Java, Spring Boot, REST APIs, React, and TypeScript. - Collaborated with faculty and staff to translate requirements into technical solutions improving user experience. - Designed relational databases using MySQL and PostgreSQL with secure RBAC authentication. - Worked within an Agile/Scrum development environment supporting sprint cycles.	Sep 2022 – Aug 2023 Coimbatore, India
UI/UX Developer <i>CODA Technology Solution PVT LTD</i> - Developed and optimized UI prototypes increasing delivery efficiency by 13%. - Used Power BI for visualization and Figma for interface prototyping. - Collaborated with development teams ensuring smooth design implementation.	May 2022 – Aug 2022 Chennai, India

PROJECTS

Spring Boot Quiz Application <i>Spring Boot, Spring MVC, PostgreSQL</i> - Developed a RESTful application using Spring Boot to create and manage quizzes. - Implemented CRUD functionality using Spring Data JPA and PostgreSQL. - Designed service logic for random question generation and score computation. - Applied Spring MVC architecture separating controller, service, and repository layers. - Tested APIs using Postman and reduced boilerplate code with Lombok.	Apr 2025 – May 2025
Risk Game Project <i>Java, JUnit, GitHub</i> - Developed a strategy game using Java with graph-based territory mechanics. - Implemented State, Command, and Observer design patterns. - Built gameplay features including deployment, attack, diplomacy, and territory conquest. - Integrated probabilistic battle simulation logic. - Validated game logic using JUnit testing and version control with GitHub.	Jan 2025 – Apr 2025
