EDUCATION

Master's in Applied Computer Science

Concordia University, Montreal, Canada

Aug. 2026

Bachelor's in Information Technology GPA: 8.51/10

Coimbatore Institute of Technology, Coimbatore, India

May 2024

PROJECTS

Spring Boot Quiz Application | *Spring Boot, Spring MVC, PostgreSQL, JUnit, GitHub Actions*

Apr. 2025 – May 2025

- Delivered a production-ready RESTful quiz platform using **Spring Boot** and **Spring MVC**, enabling instructors to create, manage, and auto-score MCQ assessments with randomized question delivery.
- Reduced error ambiguity for API consumers by implementing global exception handling with structured responses using **HTTP status codes** and **ResponseEntity**.
- Guaranteed data integrity through a normalized **PostgreSQL** schema and full **CRUD** via **Spring Data JPA**; validated all endpoints with **Postman** and enforced code quality with **JUnit** and **GitHub Actions** CI/CD.

Groupee – Social Sports Platform | *Spring Boot, React, Spring Security, JWT, PostgreSQL*

Mar. 2026 – Present

- Solved fragmented community coordination by building a full-stack platform in **Java** and **React** where users discover, create, and join local sports activities through a clean, role-driven interface.
- Eliminated unauthorized access risks by securing all API endpoints with **JWT** and **Spring Security**, enforcing role-based access control across every protected route.
- Accelerated feature delivery by designing a clean 3-layer backend (controller, service, repository) with **Spring Data JPA**, **PostgreSQL**, and **Claude Code** for AI-assisted development.

EXPERIENCE

Data Assurance Analyst

Dec. 2023 – May 2024

Ernst & Young (EY) – S. R. Batliboi & Associates LLP

Chennai, India

- Improved financial assessment accuracy by extracting and analyzing large datasets using **SQL**, directly supporting audit decisions made by senior Chartered Accountants at a Big Four firm.
- Cut manual reporting effort by streamlining audit workflows with **Alteryx** and **Excel**, enabling faster and more reliable output delivery across multiple client engagements.

Full-Stack Developer (Part-Time)

Sep. 2022 – Aug. 2023

Coimbatore Institute of Technology

Coimbatore, India

- Improved platform reliability by delivering scalable full-stack features using **Java**, **Spring Boot**, **React**, and **TypeScript**, directly enhancing usability for faculty and students across the institution.
- Reduced security vulnerabilities by implementing **RBAC** authentication across **MySQL** and **PostgreSQL**, protecting sensitive institutional data from unauthorized access.
- Accelerated sprint delivery by gathering requirements directly from faculty stakeholders and translating business needs into working features within each **Agile/Scrum** cycle.

UI/UX Developer

May 2022 – Aug. 2022

CODA Technology Solution PVT LTD

Chennai, India

- Increased project delivery efficiency by optimizing UI prototypes in **Figma**, reducing back-and-forth between design and development through clearer, implementation-ready specifications.
- Enabled faster stakeholder decisions by producing **Power BI** dashboards that turned raw data into clear visual insights, improving communication across cross-functional project reviews.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Python, C++, C

Backend: Spring Boot, Spring MVC, Spring Security, RESTful APIs, JWT, Exception Handling, ResponseEntity

Frontend: React, HTML, CSS

Databases: PostgreSQL, MySQL, Hibernate, JDBC, Spring Data JPA

Cloud & DevOps: AWS (EC2, S3, IAM), Docker, CI/CD Pipelines, GitHub Actions, Git

AI & Tooling: Claude Code, GitHub Copilot, Prompt Engineering, AI-Accelerated Development

Practices: Agile/Scrum, OOP, Unit Testing (JUnit), Secure Coding, Object-Oriented Design

INTERESTS

Reading Books, Journaling, Social Media Content Creation, Chess, Badminton, Meditation, Gym, Travelling
